MATEUSZ ŚWIĄTEK

STUDENT
JAVA DEVELOPER

📞 +48 790755606　　✉ mswiatek2002@gmail.com　　⭘ @Mateoswiatek　　in @Mateoswiatek

SKILLS

Java

SpringBoot

SQL (PostgreSQL)

Domain Driver Design

Git

Linux

Argo, Kubernetes, Elastic

PROFILE

I am a third-year student with experience working in a microservices environment, where I actively participated in design project meetings, contributing creativity and insightful ideas. I was also responsible for refactoring and extracting generic parts of the code into internal libraries, implementing repetitive business processes and exposing only the necessary components. My focus is on software engineering, Domain-Driven Design, and writing clean, efficient code.

With a technical background, I have developed a strong engineering mindset that allows me to critically assess projects, identifying potential issues while considering the business value they bring. I also excel in clear communication and writing comprehensive code and documentation. As a student, I am always eager to acquire new knowledge and skills to continually improve my expertise.

EDUCATION

AGH University of Science and Technology, Kraków

Bachelor of Science:
Computer Science and Intelligent Systems
10/2022 - present

Electrical and Electronic Technical School, Szczecin

Technician Mechatronics
09/2018 – 04/2022

EXPERIENCE

Java Developer

Core Logic sp. z o. o.　•　04/2024 – present
- Traficar

Electronics Intern

Marcontrel sp. z o.o.　•　02/2021 – 03/2021

PLC programmer Intern

Puch sp. z o.o.　•　06/2020 – 07/2020

LANGUAGES

Polish - Native
English - B2

AWARDS

Laureate of the Olympiad of technical innovations and inventions (OITiW) Ranking, Video

Finalist of the 45th National Olympiad of Electrical and Electronic Knowledge in the mechatronics group (AGH)
